

UMANA at the 28th CPA ANNUAL CONFERENCE & TRADE SHOW in Toronto

Carver Technologies' UMANA Payroll Management Software will be featured at the CPA's (Canadian Payroll Association) Annual Conference and Trade Show this year which is being held at the Westin Harbour Castle Hotel in Toronto.

This module integrates seamlessly with the UMANA Suite of products. For more information you are welcome to visit us at the Carver Technologies' booth July 7th 2010 from 9 am to 5 pm.

Time tracking, Attendance, and Payroll

Umana offers fast, integrated, versatile solutions for every kind of business. Umana payroll has the power and flexibility to manage critical functions with confidence and ease. From time-sheets to net pay, you can count on Umana to get the job done right.

Umana handles all types of earnings and deductions with user defined pay codes that personalize to your unique needs.

This module tracks exactly what happens every day, by person, by project, by pay code, etc. Tied directly to time banks you get a precise and accurate picture which you can use to pay employees, do statistical analysis, or even charge back your customers.

Umana's integrated net pay calculates Canadian payroll for all provinces easily and efficiently. It is an excellent solution which costs you nothing per pay run. Umana Payroll software can be combined with Umana HR for a fully integrated Human Resource Payroll package.

About UMANA and Carver Technologies

Carver Technologies provides Human Resource and Payroll Management Software Solutions, responding to the needs of organizations of 150 employees and up. Carver Technologies Software Suite is sold under the name UMANA.

UMANA offers a full range of products comprising 15 modules and all related services

Several of the services included:

- Development to personalize the application where necessary
- Onsite services and advice for optimal installation and configuration
- On site user implementation training
- Full support contract, including updates, telephone support and remote access

All the services required to support a turnkey application adapted to all your needs

In addition:

- A multitude of productivity features
- Renowned user friendly applications
- Solutions that keep pace with evolving technology

Carver Technology excels in responding to the needs of organizations of 150 employees and up. Our Solution can accommodate environments with complex needs such as union environments, varieties of employee groups, timesheets with large numbers of rules, multiple systems, complex benefits, and complex pension plans, etc.

Carver Technologies invests 10 % of our gross revenue in Research and Development in order to improve the functionality and performance of our different software packages. Some of our most important projects include our web portal and our new absence management module.

About the CPA 28TH conference & trade show

From July 6 to 9, 2010, join the Canadian Payroll Association in the multicultural city of Toronto for an education experience that brings together payroll, legislative compliance, employment standards and management techniques to meet your professional needs.

The 2010 Conference will provide you with the knowledge and skills you need to manage your payroll career as you learn from subject matter experts and the experiences of your payroll colleagues.

Who should attend?

- New and experienced Payroll, HR and IT professionals
- Specialists from Accounting and Finance
- Consultants, trainers, business owners and other individuals with a functional responsibility for payroll
